

# The Crows' Courier!

ISSUE NO. 6 | JUNE 2021

---

## OUR PURPOSE

---

*The mission of Crows' Feat Farm  
is to build community through a collaborative  
commitment to regenerative farming*

---

## WHAT'S GROWING ON

---

### *The Strawberries Are Here!*

After two years of careful stewardship, our first crop of strawberries is looking to be a bumper one! These beauties are organically grown, fresh-picked and bursting with the sweetness of June. Come and get them at our weekly farm stand, every Saturday from 10 am – 4 pm. We also have fresh spinach, kale, lettuces, seedlings, flowers, eggs and so much more. This is a great opportunity to meet our farmers and learn about our cooperative model and regenerative growing practices.

### *Listen to the Music*

We're delighted to continue the tradition of live music at Crows' Feat Farm, and are welcoming a remarkable lineup of artists to perform for our community this year. The theme song for our summer season is David Roth's "[This is the Year](#)." Have a listen and you'll understand why this year represents a golden opportunity to become our best selves.

Nationally-beloved folk singer Tracy Grammer and her musical partner Jim Henry will be opening our series on June 27th – their first live performance in over a year. They and the other musicians who make up our summer of 2021 represent a broad array of styles and ages, all with extraordinary talent and a determination to keep live music alive. [Check out our artists](#) at come support their genius!

---

## FARMER'S CORNER

---

*Watching the farmers of Crows' Feat come together around a shared vision of cooperative and regenerative farming has been the most remarkable and rewarding experience of my life. These young people did not know another six months ago. They took a big leap of faith in relocating to this farm and have, in a very short span of time, learned to trust one another and work together to solve challenging problems. One concrete measure of success is the increasing numbers of their friends and families who come together to this farm to celebrate their progress and help them succeed. Many visitors have remarked that these farmers seem like a family.*

*My husband Peter is remarkably talented in any and all matters related to construction, carpentry, machine repair, plumbing—you name it. But his skills won't survive him without apprentices. The same is true for me – but with a different skill set. By bringing together young people with a wide array of interests and talents, we are getting ready for anything!*

*It may be too soon to be proud of them, but not too soon to be amazed by these young farmers.*

- Karen Parker Feld

## COME & GROW WITH US!

---

### First Saturday Work Parties

July 3<sup>rd</sup>

August 7<sup>th</sup>

September 4<sup>th</sup>

From 9 am - noon, followed by a farm lunch

### Working Together

On the first Saturday of every month, the Crows' Feat Farm team benefits from the talents of this community. This month we got a bunch of logs inoculated to grow mushrooms. Next month we'll probably be harvesting produce, completing the solar kiln, and installing our cistern/irrigations system. Whatever the project, we we couldn't do it without the warm embrace of this wonderful community.
